Set in Arbour Hills and backing onto an Urban Reserve, this modified bi level is open, bright, and luxurious. The front entry is spacious and welcoming, with room to take off boots and coats without feeling crowded. Up a few steps, the home opens into the main living area with an open floor plan and an impressive amount of natural light from the floor to ceiling windows. Neutral finishes and 13 foot coffered ceilings add even more WOW to the space. It's hard to pick a standout feature, but the kitchen certainly makes an impression. Custom light cabinetry, quartz countertops, a pantry, and a large island with seating for five make it both functional and beautiful. The dining area sits right beside the kitchen, framed by large windows and a statement chandelier, with patio doors leading out to the deck. The living room anchors the space with a gas fireplace feature wall finished with floor to ceiling tile and a mantle. The main floor also includes two bedrooms and a full bathroom. Upstairs, a cozy loft style sitting area leads to the primary bedroom through double doors. The bedroom feels private and calm with vaulted ceilings, a chandelier, and a two way gas fireplace shared with the ensuite. The ensuite is spacious and elegant, featuring trayed ceilings, white tile floors, a standalone soaker tub, a tiled glass shower, and two sinks. A generous walk in closet completes the space and keeps everything organized. Downstairs, the finished basement extends the living space, along with a den, another bedroom, a four piece bathroom, and laundry. With no rear neighbours and the Urban Reserve behind, the fenced backyard with a deck is a great place to enjoy in the warmer months. The oversized double garage is a standout feature. Fully finished and heated, one side extends 26 feet deep and includes floor drains along with hot and cold water, making it ideal for vehicles,

storage, and toys. This gorgeous, upgraded home offers space, light, and privacy in a well planned layout. Call your REALTOR® today to book a showing!!
